

SENP2 Antibody (SUMO Protease 2)

Cat. # AB4020

250 μ g

Background

SENP2 is a deSUMOylating enzyme that can recognize the three primary isoforms of SUMO (SUMO-1, -2, -3). A large amount of work has been done on the structural interactions of SENP2 with substrates^{1,2}. SENP2 regulates a large number of cellular processes including nuclear transport and cell cycle^{3,4}.

Alternate Names: Axam2, AXAM2, DKFZp762A2316, KIAA1331, Sentrin/SUMO-specific protease SENP2, Sentrin-specific protease 2, Smt3ip2, SMT3IP2, SMT3-specific isopeptidase 2

Molecular Weight: 31kDa

Specificity/Applications

Species Cross Reactivity: Human

Source: Chicken

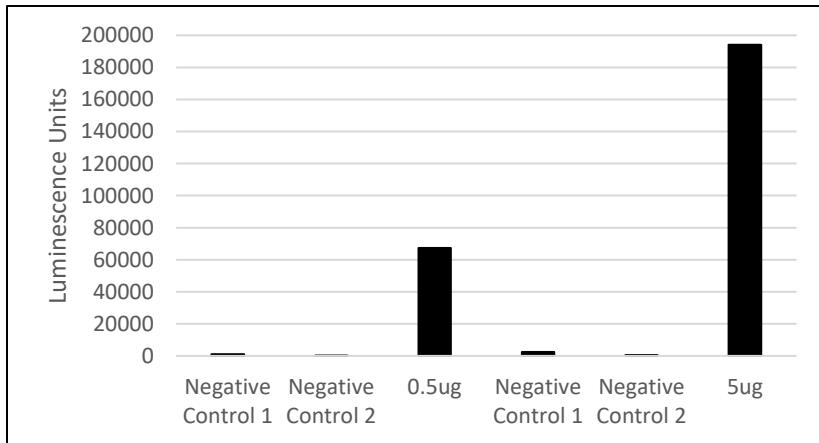

Applications: WB

Recommended Antibody Dilutions:

Western Blotting: Robust detection of 500ng of recombinant protein was possible when antibody was used at a final concentration of 10 μ g/mL

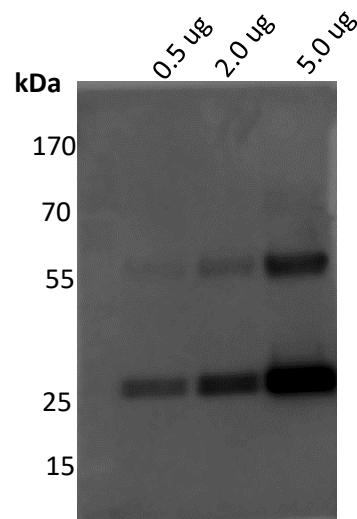

Storage: Store at -20°C; Avoid repeated freeze/thaw cycles. Supplied in phosphate buffered saline (pH 7.4).

Detection of SenP2core by AB4020 using ELISA and Western Blot

0.5 or 5 ug of SenP2core was coated on ELISA plate. Subsequently, unbound proteins were washed away and blocked with BSA. SenP2core was detected by 20.14 ug/mL of AB4020 using traditional ELISA detection reagent. 2nd Antibody: α -Chicken HRP (1:5000). Negative Control 1: No AB4020 Negative Control 2: no detection reagent.

2nd Antibody: α -Chicken HRP (1:5000).

Indicated amounts of SenP2core were loaded on SDS-PAGE gel followed by Western Blot. The blot was detected by 10.00 ug/mL of AB4020.
